EDUCATION

Bachelor of Technology in Computer Science Engineering	2022 – 2026
<i>VIT Bhopal University, Bhopal, Madhya Pradesh</i>	<i>CGPA: 8.97/10.0</i>
Higher Secondary Certificate (Class 12)	2021
<i>DAV Public School Hazaribag, Jharkhand</i>	<i>Percentage: 91%</i>
Secondary School Certificate (Class 10)	2019
<i>DAV Public School Tapin North, Ramgarh, Jharkhand</i>	<i>Percentage: 92.8%</i>

TECHNICAL SKILLS

Programming Languages	: C/C++, Python, JavaScript, SQL, HTML/CSS
Web & Backend Development	: Node.js, Express.js, React.js, Next.js, Angular.js, RESTful APIs
Database & Data Handling	: MySQL, MongoDB, SQL Querying, Data Modeling, CRUD Operations
Tools & Practices	: Git/GitHub, Postman, SDLC, Agile Collaboration, Debugging, Problem Solving (DSA), OOPS
AI / ML Exposure	: TensorFlow, PyTorch, OpenCV, MediaPipe, Google Gemini API

EXPERIENCE

Web Developer Intern	February 2025 – April 2025
<i>Raklyar Enterprises</i>	<i>Remote</i>
- Enhanced user interface performance using Next.js and improved mobile responsiveness across multiple device breakpoints for enterprise-style web workflows - Developed frontend components for image upload and display with real-time preview and backend API integration, ensuring smooth client-server data flow	

PROJECTS

Ocassio - Event Management Platform <i>Full-stack web application with AI integration</i>
<i>Live Demo</i>
- Developed a full-stack event management platform using Next.js and TypeScript, enabling structured event creation, management, and discovery with image uploads and validations - Integrated Google Gemini API for automated event summarization and intelligent recommendations, supporting improved user experience and engagement - Implemented secure payment workflow using Stripe API, authentication using Clerk, and real-time data handling with MongoDB for scalable operations - Built a responsive chatbot-based query interface and dynamic event discovery module for improved platform usability across devices
Hasthakshar - Indian Sign Language Recognition System <i>Computer vision and deep learning application</i>
<i>GitHub Repository</i>
- Built real-time sign recognition system using computer vision and deep learning with dataset preparation, preprocessing, and structured pipeline development - Implemented skeletal keypoint detection using MediaPipe and OpenCV to enable accurate gesture tracking and consistent feature extraction - Trained deep learning models using TensorFlow and PyTorch, achieving strong classification performance across alphabetic signs

ACHIEVEMENTS AND CERTIFICATIONS

- First Runner-Up, Zelestra X AWS ML Ascend Challenge 2025 (National ML Hackathon) - Top 10 Finalist, HackXplore 2025 (SPIT Mumbai Hackathon Event) - Top 10 Finalist, Odoo Hackathon 2025 (24-Hour Innovation Challenge) - IBM Certified Generative AI Developer (Certified Skill Credential Program) - Top 100, Amazon ML Challenge 2024 (Competitive ML Challenge)

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

- Social Media Co-Lead, Eureka Club VIT Bhopal – Led campaign strategy for Advitya-2025 festival, managing outreach reaching 5000+ students and participants - CCL Merit Scholarship Recipient (2022 – 2024) – Awarded merit scholarship for academic excellence and leadership
